

Our summer camp's goal is to connect the children to the world around them, increase their awareness of their surroundings, how they can be a part of their community and make a difference to everyone around them. We will provide opportunities for children to learn and practice leadership, and teamwork skills as well as self-reflection, self-awareness and self-reliance.

This year our summer camp will be led by qualified early childhood teacher with in-depth understanding of children's development as well as, teachers in the education field and high student volunteers. Together we will work together to provide an environment that nurtures mentorship, inclusion, and inquisition in children.

**From
